Registros duplicados removidos	33

Campo	Descrição
Tipo de revisão	Revisão sistemática e crítica da literatura
Bases	Scopus, IEEE Xplore e ACM Digital Library
	("gamification" OR "gameful design" OR "gamified learning" OR "gamified system") AND ("adult" OR "adults" OR "higher education" OR "professional training" OR "workplace learning" OR "adult learning") AND ("engagement" OR "motivation" OR "participation" OR "user experience") AND ("design method" OR "framework" OR "user-centered design" OR "participatory design" OR "interaction design")
String conceitual	
Critério de inclusão 1	Estudos sobre gamificação, processos de design da gamificação ou sistemas
Critério de inclusão 2	Estudos com adultos ou contextos predominantemente adultos, como ensino superior,
Critério de inclusão 3	Estudos situados em ambientes digitais de aprendizagem, como LMS, AVA, e-learning,
Critério de inclusão 4	Estudos que discutem método, framework, processo de design, UX, interação,
Critério de exclusão 1	Estudos voltados exclusivamente para crianças ou adolescentes.
Critério de exclusão 2	Estudos sobre jogos sérios ou game-based learning sem relação clara com gamificação.
Critério de exclusão 3	Estudos nos quais a gamificação aparece apenas de forma tangencial ou secundária.
Critério de exclusão 4	Estudos sem relação com aprendizagem digital.
Critério de exclusão 5	Estudos duplicados, editoriais, pôsteres, resumos ou textos sem revisão por pares.

Understanding Storytelling as a Design

DUP-FINAL-029

Critério	
1. O conteúdo da obra é relevante para o curso?	
2. A obra apresenta uma abordagem inovadora ou original?	
3. A obra contribui para a compreensão dos conceitos e temas abordados no curso?	
4. A obra possui uma linguagem clara e acessível?	
5. A obra contém exemplos práticos que possam ser aplicados em sala de aula?	
6. A obra está atualizada e reflete as últimas pesquisas na área?	
7. A obra possui referências bibliográficas confiáveis e relevantes?	
8. A obra oferece recursos adicionais, como vídeos, gráficos ou tabelas, que possam facilitar o aprendizado?	
9. A obra aborda questões éticas relacionadas ao tema do curso?	
10. A obra é escrita por um autor com credibilidade na área?

Motivo principal	Contexto adulto	Método/framework/d	Elementos de gamificação
Estudo com universitários, protótipo gamificado	Ensino superior;	Design Thinking;	Pontos/EXP, badges/conquistas, leaderboard,
Valida framework gamificado para disciplina de	Ensino superior;	Framework gamificado	Pontos, bônus, penalidades, medalhas, ranking,
Apresenta desenvolvimento de aplicação	Ensino superior;	Solo Scrum; design	Simulação 3D, AR, sistema de pontuação,
Foco principal é segurança com blockchain para	Ensino superior;	Framework tecnológico	ECP/pontos, quests, níveis/activity level,
Apresenta framework web gamificado para	Ensino	Desenvolvimento de	XP, níveis, rankings, avatares, conquistas,
Propõe framework adaptativo com ML/RL e	Ensino superior;	Framework adaptativo;	Desafios adaptativos, níveis de dificuldade,
Framework conceitual para apoiar educadores	Ensino superior; caso	Framework AI-Assisted	Pontos, níveis, desafios, recompensas,
Propõe framework personalizado de avaliação	Ensino superior;	Design Science	Pontos, níveis, badges, leaderboards,
Estudo diretamente alinhado à revisão: usa	Ensino superior; curso	Educational Design	Narrativa de exploração espacial, missões,
Texto conceitual/overview sobre gamificação	Ensino superior militar;	Discussão conceitual;	Role-play, simulações, jogos estratégicos,
Artigo conceitual altamente relevante: propõe	Ensino superior;	Síntese teórica;	Não foca em uma implementação específica;
Propõe framework conceitual para integrar	Ensino superior/e-	Revisão de literatura;	Pontos, níveis, desafios, rankings/honor lists,
Estudo experimental pré-registrado em e-	Adult education/self-	Experimento	Narrativa, agente pedagógico, escolha de
Estudo quantitativo em instituições de ensino	Ensino superior;	Survey; modelagem de	Gamificação tratada como método
Apesar de citar gamificação, o foco central é um	Mestrado; estudantes	Quase-experimento;	Badges, leaderboards e achievement systems
Propõe framework de aprendizagem gamificada	Ensino superior;	Framework para	Pontos, níveis, recompensas, desafios
Estudo experimental de campo em ensino	Ensino superior;	Experimento; Theory	Quiz gamificado, pontos, feedback imediato,
Artigo curto sobre desenvolvimento de	Ensino superior;	Framework modular;	Pontos, leaderboards, badges, narrativas,
Framework de mixed/augmented reality para	Ensino superior;	Framework GaMR;	Quizzes, badges, barra de progresso,
Estudo diretamente relacionado à	Ensino superior; 481	Survey transversal;	Elementos MDC como desafios, competição,
Propõe framework estrutural e operacional	Ensino superior; curso	Framework APAR:	Atividades, pontos, conquistas, recompensas,
Estudo sobre ambiente online gamificado para	Ensino superior;	Design e avaliação da	Pontos, badges, leaderboards, reputação,
Propõe e testa um framework gamificado com	Ensino superior; 120	Framework de	Moedas virtuais, badges, leaderboards, sistema
Propõe framework inicial para integrar e-	Ensino superior; e-	Design thinking;	Pontos, níveis, badges, leaderboards, desafios,
O foco é engajamento de docentes/faculty em	Adultos/profissionais	Survey; Flow Theory;	Gamificação tratada como constructo
Estudo propõe e valida abordagem formal de	Ensino superior; 240	Modelo quantitativo	Pontos, níveis, badges, rankings competitivos,
Propõe e avalia framework de aprendizagem	Ensino superior;	Action research; MDE	Simuladores de negócio, competição, equipes,
É um doctoral colloquium/proposta de	Ensino superior;	Proposta	Recompensas, status, competição, satisfação,
Relaciona CMC, gamificação e serious video	Ensino superior;	Análise teórica de	Serious video games, personalização por tipo de
Propõe um framework teórico para	Ensino superior;	Framework teórico de	Pontos, leaderboards, níveis, competição,
Apresenta um framework de gamificação	Ensino superior;	Action research;	XP, leaderboards, badges/recompensas,
Estudo identifica preferências de elementos de	Ensino superior; 309	Survey com escala	Challenge, choice, collection, competition,

Estabelece consenso de especialistas sobre	Ensino superior; cursos	Delphi modificado em	Challenges/quests, points/rewards, badges,
Aplica o modelo ARCS com metodologia	Ensino superior; 75	ARCS model;	Quizzes gamificados com Kahoot/Socrative,
Avalia duas implementações piloto de	Ensino superior; 117	Mixed methods;	Narrativa, capítulos, desafios, recompensas,
Estudo forte com adultos trabalhadores, usando	Adult learning; 54	True experimental	Oito core drives do Octalysis; objetivos,
Apresenta aspectos didáticos, técnicos e de	Ensino superior;	Design de aplicação	Níveis, ranks, feedback imediato, progressão,
Explora co-design participativo de experiências	Ensino superior; 52/53	Participatory design;	Propostas gamificadas mediadas digitalmente;
Apresenta uma segunda implementação híbrida	Ensino superior; 12	Ciclo build-test-refine	Moeda virtual Prestige, pontos de experiência,
Propõe um framework conceitual de aplicação	Ensino superior;	Framework conceitual	Badges, rankings, competição, torneios,
Apresenta o Scrum-log, modelo replicável de	Ensino superior;	Modelo gamificado	Board game, papéis Scrum, simulação de
Investiga especificamente o efeito de	Ensino superior; 23	Quase-experimento de	Pontos, badges, quizzes, leaderboards e
Discute elementos para o design de	Ensino superior;	Framework/design	Gamificação, AR/mixed realities, interatividade,
Embora trate de gamificação, motivação e	Adultos profissionais	Design Science	Leaderboards, desafios, pontos, recompensas,
Propõe um framework/user-centered para	Ensino superior; 27	Design centrado no	Recompensas, níveis, badges e pontos;
Apresenta framework genérico para	Ensino superior STEM;	Framework de	Narrativa, quests, moeda virtual, loja, bens
Estudo quantitativo robusto sobre gamificação,	Ensino superior; 615	Self-Determination	Gamificação tratada como constructo associado
Desenvolve e avalia modelo PjBL-STEM	Ensino superior;	ADDIE; PjBL-STEM;	Quizizz, pontos, leaderboards, feedback
O foco principal é um modelo de gamificação	Ensino superior;	Modelo conceitual	Badges, pontos, rankings/leaderboard, quests,
Estudo em curso blended de TI com Moodle	Ensino superior;	Hexad Player Type	Narrativa, desenvolvimento de avatar, badges
Analisa fatores institucionais de adoção da	Ensino superior;	TOE framework +	Pontos, badges e leaderboards em plataformas
Apresenta e valida um teste diagnóstico	Ensino superior; 227	Framework integrado	Pontuação adaptativa, leaderboard, feedback
Foca diretamente em adultos, UI/UX, UCD e	Ensino superior online;	User-Centred Design;	Rewards vinculados a resultados de
Avalia um framework móvel gamificado e	Ensino superior; 90	GAMOLEAF; gamified	Níveis, scores, badges, leaderboard, feedback e
Investiga efeito de ensino apoiado por	Ensino superior; 122	Solomon four-group	Badges, competições, Kahoot, Google Forms,
Protocolo de ensaio piloto que compara	Ensino superior;	Cluster randomized	Narrativas adaptadas, side missions, feedback
Apresenta framework gamificado em ambiente	Ensino superior;	Framework	Avatares, mundo virtual 3D, atividades
Propõe um framework ágil para desenhar	Ensino superior;	FRAGGLE; Agile	Não define um conjunto fixo de elementos;
Estudo empírico em sala universitária online	Ensino superior online;	Desenho quantitativo	Nearpod, Genially, Educaplay, Breakout e
Contribui com instrumento e proposta didática	Ensino superior em e-	Método Delphi;	Narrativa do pirata Morgan, níveis de
Propõe e analisa um modelo de gamificação	Ensino superior a	Modelo de gamificação	Badges, recompensas, leaderboards,
Apresenta simulação virtual gamificada para	Ensino superior;	Participatory Design	Simulação VR com níveis, investigação de cena,
Descreve escape room digital para cálculo em	Ensino superior;	Design de digital	Escape room digital, narrativa, desafios, pistas,
Investiga empiricamente motivação em	Ensino superior; 208	Modelo ARCS-R; PLS-	Quizzes, competição, colaboração, leaderboards
Estudo diretamente aderente ao público	Treinamento	Mixed-methods;	Pontos, badges, leaderboards, desafios,

Apresenta um modelo pedagógico de	Ensino superior;	Modelo de processos	Narrativa, estética, autonomia, pontos, equipes,
Propõe framework para avaliar satisfação	Ensino superior;	Framework GFSAFL	Quizzes gamificados e avaliação da experiência
Apresenta GaMR, framework aberto de	Ensino	Framework GaMR para	Quizzes, badges, progresso, metas, feedback,

Avaliação/evidência	Força da evidência	Uso no artigo
Quase-experimento one-group pretest-posttest;	Alta para efeitos	Bom estudo para evidência de efetividade e
Experimento em turma; comparação com	Média/Alta; boa	Não compõe o corpus final.
Testes de unidade, componente e sistema;	Baixa para efetividade;	Não compõe o corpus final.
Não apresenta avaliação empírica de	Baixa/ausente para a	Não compõe o corpus final.
Relato de implementação; sem estudo empírico	Baixa para efetividade;	Não compõe o corpus final.
Comparação entre aprendizagem estática e	Alta em termos de	Muito relevante para discutir
Estudo exploratório/conceitual; caso	Baixa para efetividade;	Não compõe o corpus final.
SLR preliminar; construção de framework;	Baixa/Média; forte	Não compõe o corpus final.
Dados de 188 participantes; surveys de	Alta para processo de	Referência central para metodologia de design
Não há validação empírica direta; baseia-se em	Baixa para efetividade;	Não compõe o corpus final.
Sem validação empírica própria; propõe	Média como base	Não compõe o corpus final.
Sem estudo empírico; contribuição é conceitual	Baixa para efetividade;	Não compõe o corpus final.
Encontrou efeito significativo apenas na	Alta para rigor	Muito útil para a revisão crítica porque mostra
Resultados indicam efeito moderador da	Média/alta para	Não compõe o corpus final.
Há evidência robusta para o modelo integrado,	Alta para modelo	Não compõe o corpus final.
Relata/argumenta benefícios de VR gamificado	Baixa/média; útil como	Não compõe o corpus final.
Efeito indireto positivo sobre conhecimento	Alta; um dos melhores	Referência central para evidência de quais
Coleta de feedback e estudos planejados/em	Baixa para efetividade;	Não compõe o corpus final.
Avaliação com estudantes de uma universidade	Média para	Não compõe o corpus final.
Dados de questionário com análise estatística	Média/alta para	Muito útil para discutir que gamificação para
Ilustração observacional: aumento de	Alta para	Referência central para discutir design
Intervenção ao longo de semestre; combina	Média/alta para	Útil para discutir ambientes digitais de
Compara grupo gamificado e controle; relata	Média para	Não compõe o corpus final.
Não realiza fase de teste; validação futura	Baixa para efetividade;	Não compõe o corpus final.
Evidência empírica sobre faculty engagement,	Fora do escopo	Não compõe o corpus final.
Grupo experimental com gamificação otimizada	Alta para	Muito útil para discutir passagem de design
Avalia percepção/experiência dos estudantes e	Média/alta para design	Não compõe o corpus final.
Sem resultados empíricos concluídos; descreve	Baixa para evidência;	Não compõe o corpus final.
Estudos de caso e comparação com dados	Média para evidência	Não compõe o corpus final.
Estudo conceitual com aplicação em caso real;	Alta para	Não compõe o corpus final.
Implementação em uma unidade ao longo de	Média/alta para design	Referência forte para discutir gamificação
Questionário de preferências e análise	Média para orientação	Não compõe o corpus final.

Consenso de 12 especialistas; usa médias, IQR,	Alta para consenso de	Muito útil para sustentar recomendações de
Estudo de caso com surveys IMMS em três	Média/alta para	Não compõe o corpus final.
Dados quantitativos e qualitativos; taxas de	Média/alta para design	Útil para discutir transferibilidade, consistência
Experimento de duas semanas com grupos	Alta para efetividade	Referência central para o recorte de adultos,
Usa evidência de sistema anterior: apenas 19%	Média para design;	Não compõe o corpus final.
Dados qualitativos de workshop e questionário	Alta para processo de	Não compõe o corpus final.
Surveys voluntários nas semanas 5 e 10, com	Média para	Não compõe o corpus final.
Não apresenta experimento; descreve proposta	Alta para proposta	Não compõe o corpus final.
Estudo experimental com 112 estudantes,	Alta para efetividade e	Muito útil para discutir design orientado a
Mede número de posts, pontos acumulados e	Média/alta para	Essencial para a dimensão crítica, pois mostra
Baseia-se em feedback anterior de estudantes,	Média para diretrizes	Não compõe o corpus final.
Logs de Jira/Hubstaff e entrevistas; avalia	Alta para contexto	Não compõe o corpus final.
Evidência qualitativa via focus group; define	Média para	Não compõe o corpus final.
Três implementações em cursos STEM;	Alta para	Não compõe o corpus final.
Questionário com SEM; examina efeitos sobre	Alta para relações	Não compõe o corpus final.
Validação de 120 itens por especialistas, seis	Alta para efetividade	Não compõe o corpus final.
Não apresenta avaliação empírica com	Baixa para o objetivo	Não compõe o corpus final.
Questionários online com 130 estudantes;	Média para	Não compõe o corpus final.
Survey quantitativo analisado com PLS-SEM;	Média para fatores de	Não compõe o corpus final.
Mixed-methods: indicadores de desempenho,	Alta para instrumento	Não compõe o corpus final.
Dois focus groups com 8 adultos e 7 e-tutores;	Alta para contribuição	Estudo central para a revisão, especialmente
Experimento com três grupos; ANOVA e Tukey;	Alta para efetividade	Muito útil para discutir que gamificação pode
Questionário de conceito aberto, journals,	Alta para evidência	Útil para discutir evidências robustas de
Protocolo planejado com pré/pós-teste,	Alta para desenho	Não compõe o corpus final.
Estudo experimental/evaluativo sobre	Média/alta para	Não compõe o corpus final.
Artigo conceitual/metodológico; não apresenta	Alta para método de	Não compõe o corpus final.
Amostra de 147 estudantes; intervenção de	Média/alta para	Não compõe o corpus final.
Validação por 33 especialistas em duas rodadas;	Alta para validação de	Não compõe o corpus final.
Amostra de 150 estudantes em quatro	Alta para design	Estudo central para discutir que o sucesso
Estudo preliminar com apenas 7 respostas ao	Baixa/média; relevante	Não compõe o corpus final.
Resultados iniciais/pilotos indicam melhora em	Média para descrição	Não compõe o corpus final.
Resultados mostram efeitos positivos	Alta para análise	Não compõe o corpus final.
Gamificação aumentou retenção de	Alta para contexto	Muito útil para discutir gamificação em adultos

Implementação avaliada ao longo de dois anos	Alta para processo de	Estudo central para discutir design intencional,
Dataset SSAGS com opiniões de estudantes; uso	Média para avaliação	Não compõe o corpus final.
Avaliação de aplicabilidade conceitual e técnica	Média/alta para design	Não compõe o corpus final.

Observações críticas

Amostra adequada, mas o desenho sem grupo

Contribui diretamente para a matriz crítica:

Registro fora do recorte da revisão segundo os

Pode ser citado apenas se houver seção lateral

Útil para a crítica sobre estudos que detalham

Verificar com cuidado se o método, dados e

Manter se o artigo quiser discutir métodos de

Bom exemplo para sua crítica: reconhece OSFA

Excelente para discutir que gamificação efetiva

Excluído após leitura completa por aderência

Importante para a revisão crítica, pois explicita

Excluído após leitura completa por aderência

Deve ser usado para equilibrar o artigo e evitar

Entraria bem na discussão de efetividade, mas

Registro fora do recorte da revisão segundo os

Excluído após leitura completa por aderência

Excelente para sustentar análise crítica baseada

Excluído após leitura completa por aderência

Manter; bom para uma subcategoria de AR/MR,

Entraria bem na matriz crítica como evidência

Muito alinhado ao objetivo do artigo; ajuda a

Bom caso para análise crítica: mesmo com

Excluído após leitura completa por aderência

Excluído após leitura completa por aderência
